Network and Systems Innovation for Contracting Est.

Technology That Works
Keeping You Connected, Always.

Your Trusted Partner

Relationship

We want to establish good & lasting relationships with our clients & candidates believing that trust and determination are the ultimate recipes for success.

We support workplace flexibility and encourage work/life balance.

About Company

Network & Systems Innovation Contracting Est. Was foundin 2023 in SaudiArabia.

NSC key expertise lie in large scale project management, procurement, consultancy, high precision engineering, development of functional and detailed specifications. Moreover, partnering with respective industry leaders, NSC has developed the reputation of successfully delivering & commissioning key projects at world classs tandards, low cost and most importantly, on schedule.

NSC can also provide technologies for fiber-opticbased applications, digital networks, microwave and other radio systems, local and wide area networking, ISDN/PSTN/IP communications systems and video (CCTV), audio and access control interfacing. Fire Fighting, Security.

Specializedin the supplyof products and services used inthe implementation of voice, data and video networks, we are committed to our customers and staff and aim to deliver products and services, specified, implemented and supported by trainedandmotivatedengineers. Our experience extends to the build and support of critical networks for the power, transportation and industrial markets, in addition to business, education, government and health.

Vision Statement

“ Our vision to be a pioneering force in network and systems innovation, delivering cutting-edge solutions that empower businesses with seamless connectivity, enhanced security, and sustainable technological growth. We strive to set new industry benchmarks through excellence, reliability, and customer-centric innovation. ”

SERVICES

Our Services

- Integrated Cabinate Sytem
- Techonlogies
- Networking
- CCTV
- Maintenance & Operation
- IT Staff Outsourcing Services
- IT Annual Maintenance Contract
- Servers & Systems Solutions

Intigrated Cabinet Systems

Data Cabinet Wall Mounted

FEATURES

- All accessories are for options
- Quick open side doors, easy to install and maintain
- RU markings on front & rear mounting rails
- Top & bottom wire path
- Wall mounted type
- Convenient and quick wall mounting
- Lockable via keys
- Tinted glass front door can be mounted on left or right side
- Supplied complete, no assembly required
- Material: SPCC quality cold rolled steel
- Thickness: Square hole strips 2.0mm, others 1.2mm
- Sizes: Width 550/600mm, Depth 450mm or 600mm,height 4U-18U or others
- Surface Finish: Degrease, acid pickling, rust prevention and parkerizing pure water cleaning, static electricity plastic painting.
- Color: RAL9004(black)
- Two outlet cable entrance on top cover and bottom cover
- Front door with bolt lock,side panels removable with fasteners
- Complies with ANSI/EIA RS-310-D, IEC297-2, DIN41491; PART1, DIN41494; PART7, GB/T3047.2-92.
- Compatible with 19" International Standard and Metrical & ETSI standards.

Integrated Cabinet Systems

Data Cabinet Wall Mounted

FEATURES

- Wall installation type, removable backmount (100mm)
- Quick and easy wall mounted, 19" standard installation inside. Double section structure, the open angle between the two sections is 120 degrees, the open angle for front door is over 180 degrees.
- Hinges can be interchanged for left or right swinging backmount
- 120mm size fan could be installed at top of cabinet.
- Cable entry from top and Bottom.
- IP Degrees: IP20.
- Flexible packing methods allows for convenient stocking and end user delivery.
- Multiple sizes available.
- Sizes: 6U-27U, 600x550/600MM

Customization requests welcomed Standard and Material:

Comply with ANSI/EIA; RS-310-D; IEC297-2;

DIN41491:PART1; DIN41494:PART7; GB/T3047.2-92

standard, compatible with 19" international standard, metric system and ETSI standard.

Surface Finish: Degreasing, pickling, phosphating, powder coating.

Material: SPCC cold rolled steel.

Thickness: Mounting profile: 1.8-2.0mm; others: 1.2mm

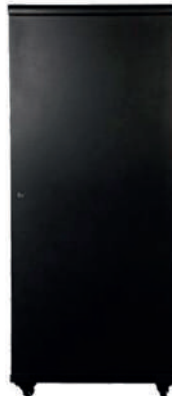

Color: RAL9004 (black)

NETWORK SOLUTION

Structure Cabling

Complete Network Solution for Structured Cabling.

NSC, we specialize in delivering end-to-end network solutions with a strong focus on structured cabling to ensure seamless connectivity and efficiency for businesses of all sizes.

- **Complete Structured Cabling:** High-performance, scalable, and future-ready infrastructure for data, voice, and video communication.
- **Network Design & Implementation:** Customized solutions tailored to your specific needs.
- **Data Center Cabling:** Reliable and organized cabling for optimized network performance.
- **Fiber Optic & Copper Cabling:** High-speed and durable installations for modern connectivity.
- **Maintenance & Support:** Ongoing assistance to keep your network running smoothly.
- Supply, installation, trouble shooting, testing & commissioning of UTP, STP Cables, Ethernet switches, Routers, Connectors, Patch Cords and Patch Panels, Racks.

Data Centre & LAN Structure

Data Centre & LAN Structure Cabling Infrastructure Services

- Structured & Data Center Cabling Design
- Consultancy, Survey & Project Management
- Preparation of structured cabling specifications
- Network Critical Passive Connectivity Integration
- Data Center: High Density MPO / MRJ based Connectivity Solutions from Tyco Electronics.
- Fiber Splicing, Fusion & Termination Services
- Fluke Testing, Validation & Documentation
- Outsourced Technical Services
- Data / Voice Passive Connectivity Managed Services.
- Pulling, Laying and Termination services for Category 5e, Category 6 and Category 6a copper infrastructure.
- Pulling, Laying and Termination services for Fiber (Multi Mode and Single Mode - splice).
- Installation, Dressing & Labelling of Racks, cabinets and patch panels.
- Installation Service
- Fluke Testing, Validation & Documentation
- Manufacturer's Extended Warranty

FIBER OPTICS

Fiber Optics

NSC Company, we specialize in delivering high-quality fiber optics solutions that meet the ever-growing demand for fast, reliable, and secure connectivity. Whether you're upgrading your network infrastructure or building a completely new one, we offer end-to-end fiber optics services tailored to your needs.

Expert installation of fiber optic cables to ensure fast, efficient, and secure data transmission.

- Complete Telecommunication Solutions
- Supply, Installation, Testing & Commissioning and Trouble Shooting of Fiber Optic Cables, Joint Enclosures, Patch Cords, Connectors, Patch Panels, Racks.
- We are the supplier of the major Fiber Optic Cable Manufacture like Corning, LS Cables, MEFC.
- We have a large stock of Fiber Optic Cables, Joint Enclosures, Patch Cords, Connectors, Patch Panels, Racks and we would carry them through out the place of work for any Emergencies.

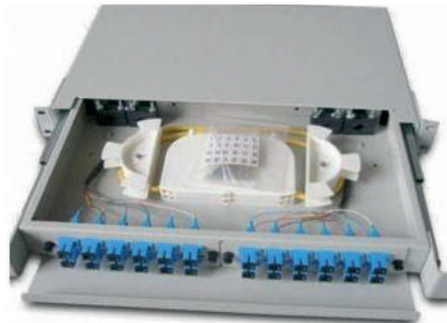

FIBER OPTICS

Fiber Optics Products

- Single mode & Multi mode, Indoor Cables, Indoor/Outdoor Cables, Multipurpose Cables, Outdoor Cables, Aerial cables.
- Simplex & Duplex Patch Cords, Special armoured Patch Cords for outdoor use.
- Splice protector sleeve, Splice bridges, Splice cassettes, Buffering tube and Fan-out kits.
- Cat3 Multi pair telephone cable, Cat 5eUTP/STP, Cat6 UTP/STP, Instrumentation & Control cables.
- Cat5e RJ-45 Modules, Cat6 RJ-45 Modules, Single & Dual face plates and UTP cable assemblies.
- CCTV of Fibers.
- Dome type joint closures and Rectangle type closures.
- Wall-mounted and free- standing cabinets in all sizes.

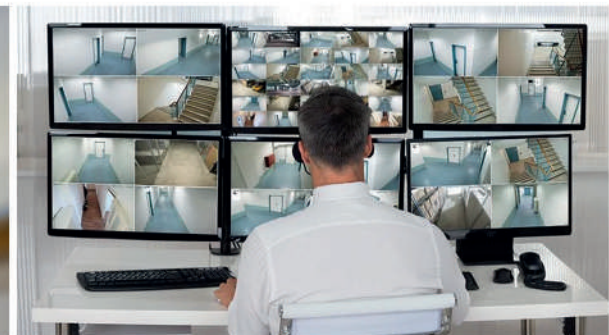

CCTV Services

Fiber Optics

NSC provides complete CCTV Solutions with Ongoing Maintenance

At NSC Company, we provide comprehensive CCTV solutions designed to keep your property secure and your peace of mind intact. From installation to routine maintenance, we ensure that your surveillance system operates at peak performance, giving you reliable security when you need it most.

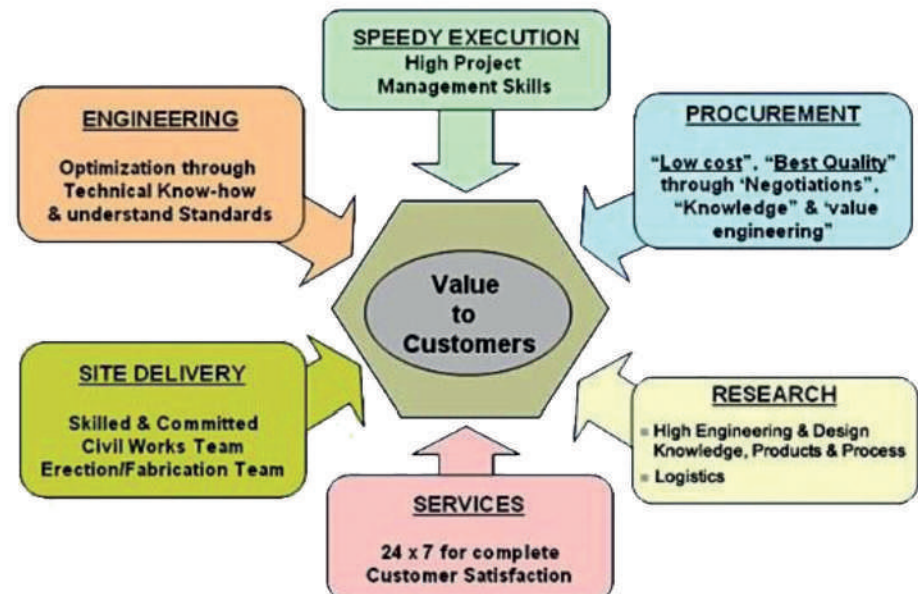

- Engineering and Designing of CCTV networking system.
- Supply, Installation, Testing and Commissioning of CCTV.
- Closed Circuit Television (CCTV) systems are broadly divided into two known types, wired CCTV systems and wireless CCTV systems.
- Wired & Wireless CCTV systems connect the camera to the recording device and monitor with the help of standard coaxial cables or Unshielded Twisted Pair (UTP) cables or fiber optic cables.
- Maintenance & Support: Regular maintenance and trouble shooting services to keep your CCTV system in top condition, reducing downtime and enhancing reliability.

Turnkey Projects

Turnkey Solution

- Turnkey Solution Provider for all communication infrastructure project.
- In-house capability for Electro- mechanical works (i.e.installation of cable trays, race ways and conduits, LV installations & termination), Civil works related to communication (i.e. laying of UPVC & HDPE conduits including excavations, sand bed, tiles and back filling) and Fiber optic network designing, Testing & Commissioning.
- NSC represents&approved installer for world's renown Manufactures of Telecommunication Products.
